These prices reflect a professional job completed within client expectations.

Standard Price list:

Standard basic charge for website: \$200 static html up to 5 pages, \$40 per additional page.

It is easier for end level users to update and add pages to CMS's.

CMS customized Word Press site with simplified backend editing (suitable for small companies with generally one website editor that would like to easily make occasional edits / updates to the site): \$275 + \$40 per page after first page. Please bear in mind, you can easily add the pages yourself with the built in backend word processor like editor, live within the admin section of the site.

CMS super powerful Joomla!, Mambo or e107 site (suitable for companies mid – large scale or where multiple users with differing admin level access is needed where also security with password protected areas may need to be easily assigned): \$350 + \$40 per page after first page. Includes forum, file sharing etc., with built in word processor style editor. Again, you can easily add the pages yourself with the built in backend word processor like editor, live within the admin section of the site.

Shopping carts: \$180 where the first ten products are entered free, otherwise price negotiated on demand.

Logo design: When you don't really have a professionally designed letter head or suitable graphic for your website \$100.

Open source CRM (comparable to SAP) installed and customized as standalone app or plugged in to your website- \$385. This allows for sales tracking, scheduling appointments, orders, and much more.

Hosting fees: Standard, Word Press CMS- \$20, e107 CMS and or CRM's \$30, per month.
